About Member Discounts and Fees

You can view the discounts and fees that will apply to your orders.

- Member Discount %: the percent volume discount you will receive from your club, if applicable
- Member Fixed Fee: a fixed dollar amount that will be added to each invoice .
- Member Percent Fee: a percent of your order total that will be added to the your invoice as a fee.

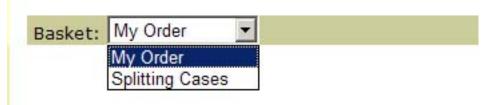

Ordering

Placing Your Personal Order

There are three different ways to place items on your order.

- view basket: displays products you've ordered, as well as your order total. You can also add items in this screen
- quick entry: allows product numbers and quantities to be entered
- product search or browse: allows you to search or browse the online catalog and view available product information before actually ordering the item.

Ordering With "View Basket"

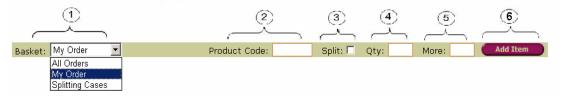

My Basket shows ALL your items, full and split cases.

Splitting Cases shows all the items that members of your buying club are splitting, so you can browse through and see if there is anything you want to order or suggest that the group split.

To order in View Baskets:

- 1. Choose a basket
- 2. Enter item number in "product code" field
- 3. If you want to split the item, click the "split" box
- 4. Enter how many of the items you want to order in the "qty" field
- 5. If you are willing to take more of that product to fill the case, enter how many more in the "More" field
- 6. Click "Add to Basket" to add the product to your basket

Ordering With "Quick Entries"

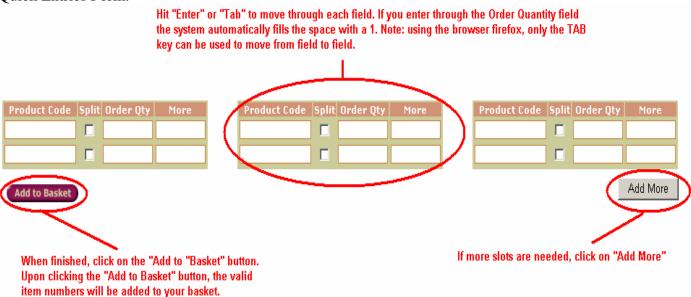

The "QUICK ENTRIES" pulls up an order form. The form does not display descriptions or prices, but descriptions and prices will be displayed after you add the items to your basket.

This is a quick way to create your order using a pricelist or past invoice as a reference. The Quick Entry Form allows you to quickly add up to 120 products to your basket by entering an item number, quantity, 'more' and indicating split cases.

After you add the items on the form to your basket, you can review product descriptions and prices to be sure you have ordered the correct items.

WARNING: You must be careful because the Quick Entries page "times out" after 15 minutes of inactivity. If the page times out you will lose what you have entered. We recommend "Adding to Basket" every 5 minutes to ensure your entries are not lost.

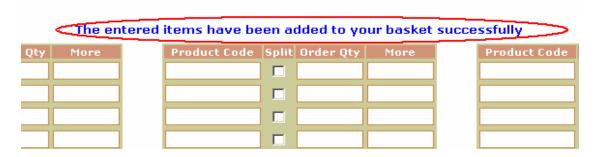

Quick Entries Form:

After you have selected "Add to Basket", any invalid product numbers will be identified and listed for you at the top of the page.

	ır item(s) have not been added to your bask owing invalid entries (wrong product code or 135874	
t Order Qty More	Product Code Split Order Qty More	Product Code Split Order Qty
1		

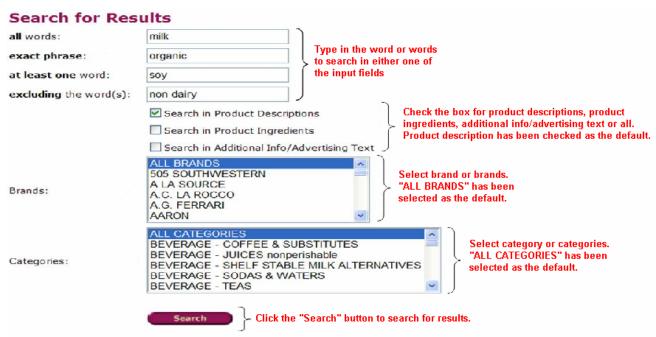

After you have added any corrections/finished entering your product numbers, click on "Add to Basket." You will receive a confirmation at the top of the page confirming that your items have been added.

Ordering With Product Search

Advanced Search allows you to search products by using several filtering options to make your searches more accurate and meaningful. This is a quick and easy way to find a specific product even if you only know only one word in the description, the brand, etc.

Ordering With View by Brand or Category

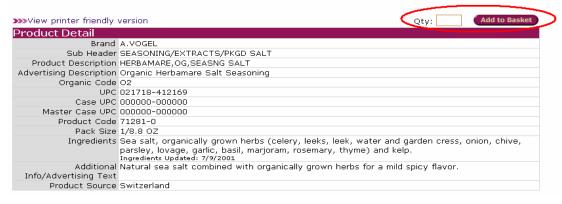

View by Brand is a quick, easy way to browse products. When the "View by Brand" link is clicked, it brings up a list of brand names starting with A that are carried by United Natural Foods. To view other brands, click the corresponding letter of the alphabet at the top of the page.

Click on the brand name desired, then click on the category desired (*Note: if there is nothing available from your warehouse in a particular category, nothing will happen. You will remain at the category selection screen.*)

To order an item:

- Enter a quantity in the "Item Quantity" field (circled in blue), and click the Add to Basket button. This will add the product and take you to your order basket to double check that it was added. (Note: When you order items from multiple pages, then return to the previous page, the order quantity you originally entered cannot be seen, but the items will still be added to your order when you click "Add to Basket")
- To review ingredients & other information about an item, click on the product code (circled in red) to view the product information we have on file for that item. To order this product, enter the quantity in the "Qty" field and click Add to Basket . This will add the product and take you to your order basket to double check that it was added.

View By Category works just like "View by Brand", except instead of displaying items by brand, items are display by category, just like in the Buying Club Pricelist. When a category is clicked, it brings up a list of sub-categories to choose from. You can then choose to enter the item quantity or click on the product code and Add to Basket.

Finishing Your Order

When you are done adding items to your basket, you don't need to do anything. Your basket is where your items will stay until the coordinator is ready to commit the order. Once the coordinator commits the order, your items will disappear from your basket and automatically be submitted to UNFI. To track your order, you may view it under the "Committed Orders" section. Once the items have been picked from the warehouse, your order will be moved from "Committed Orders" to an Invoice. Your order will ship on your next available ship date in accordance with your UNFI schedule.
